## THE DARK TOBACCO GROWERS ASSOCIATION LIST OF COUNTY'S HEAVIEST TAX PAYERS

Upon Request of a Committee Assessed by the County Board of Supervisors From this City

LAST WEEK, AT OVER \$5000

Made a Statement to the People of Crittenden County in Regard to Recent Lawlessness

Willing to do all in Their Power to Prevent Lawlessness of any Kind in This or any County

A committee, composed of Messrs. W. B. Yandell, G. M. Crider and T. H. Cochran, interviewed the officers of the Dark Tobacco Growers Association at Princeton Wednesday and asked for a statement addressed to the people of Crittenden county.

This statement was not forthcoming that day but was issued Saturday and is as follows:

To the People of Crittenden county

It has been reported that threats anonymous letters are being circulated in Crittenden county.

Now, we are not familiar with the conditions in Crittenden county. The Dark Tobacco Growers Association has no organization in that county and consequently no officers who can help manage the situation, but we can assure the people of that county that this association does not endorse such methods and will do all in the bounds of reason to prevent lawlessness of every kind and to restore peace and good will among the people.

Signed,

JONAS W. HOLLOWELL,  
Chairman Caldwell county.

## A BOYHOOD FRIEND OF THE EDITOR

Now in the Panhandle Near Canyon City, Texas Writes Real Interesting

Canyon, City, Tex., Jan. 9, 1907.

DEAR MARSHALL:

Press coming regular now. We are glad to get it. We have had nothing but spring weather since we came to the Panhandle of Texas, you ought to be out here and enjoy the weather with us. Land is very rich, will grow anything you plant. No hills, no rocks, no bushes or vines, the climate. Plenty of good water for man and beast. Land cheap yet, not going up all the time. Anyone who bought a section of land January 1st 1906 for \$4000 is now worth \$8000 and can be sold for this amount. Hundreds of men are coming here from the north and east and buying this land. This land will advance \$10 or more on the acre before this year closes.

This land is too good to stay down where it is. This is a big country and thinly settled. Taxes are \$10 to \$12 per section of 640 acres for one year. How is that? Well, Marshall this is a purely farming prairie country, fifty bushels of wheat was grown per acre near this town in 1906. Alfalfa, corn, kafir corn, maize and in fact everything in here to show for itself. Fruit and vegetables and small berries do excellent. The man that buys some of this dirt now is the man that makes the money. Well I must close for this time. Hope you all had a merry Xmas.

GEORGE H. CRIDER.

## NOTICE.

MARION, KY., Jan. 15, 1907.

TO HOLDERS OF OUR TOBACCO CONTRACTS:

We recognize both a legal and moral obligation to fulfill our contract; therefore, beg to advise that we are now ready to accept delivery, at our Marion factory, of all tobacco purchased by us, under contract from the growers of this vicinity.

In this connection will say, that after having received our outstanding purchases we stand ready to handle pooled tobacco, should the growers of Crittenden county organize and wish us to do so.

## THE LITTLE FAMILY

There was a little family who lived in Bethany. Two sisters and a brother composed the family. With prayer and with singing like Angels in the sky. At morning and evening they raised their voices high.

### II.

They lived in peace and pleasure for many lonely years. And laid away their treasures beyond this vale of tears. Through poor and without money their kindness made amends. Their house was ever open to Jesus and his friends.

### III.

Although they lived so happy, so kind, so pure and good. Their brother was afflicted and by it thrown in bed. Poor Martha and her sister they wept aloud and cried. But still he grew no better, he lingered on and died.

### IV.

The Jews came to the sisters, laid Lazarus in the tomb. And tried to comfort and drive away their gloom. When Jesus heard the tidings far in a distant land. So swiftly did he travel to see that lonely land.

### V.

And while he was a coming, Martha met him on the way. And told him that her brother had died and passed away. He blessed and he cheered her and told her not to weep. For in him was the power to raise him from his sleep.

### VI.

Yet while he was a coming, Mary met him too. Down at his feet a weeping, rehearsed the tale of woe. When Jesus saw her weeping he fell a weeping too. And wept until they showed him where Lazarus was entombed.

### VII.

He rolled away the cover and looked upon the grave. And prayed unto his Father his friend Lazarus to save. And Lazarus in full power came from the gloomy mound. And in full life and vigor he walked upon the ground.

### VIII.

So all you who love Jesus and do his Holy will. Like Mary and like Martha, you'll always use him well. He'll comfort and redeem you and take you to the skies. And bid you live forever where pleasure never dies.

### The Fly.

Two met in the road. They were old enemies. One of them drew a gun from his pocket and pointed it toward the other one, saying: "I'm going to kill you. We've both waited our chance and mine's me first."

"All right, shoot. I'd kill you if I had a chance. His finger was on the trigger and was gradually closing against it. The other man shut his eyes and stood pale as death. The pistol had a long blue steel barrel with a fine sight at the end, and just as the hammer was ready to send the plunge into the cartridge, a fly lighted on the sight, the gun wobbled and the ball passed the enemy's head. The man dropped his gun into his pocket. "I won't shoot any more. Never kill another fly. That one saved you."

## Discovery of Mammoth Cave

### The Others Heart

By WILKIE.

In 1807 nearly a century ago, occurred the discovery of the Mammoth Cave of Kentucky, says the Standard. Its disclosure probably resulted from the quest for "petter" dirt, as soil found in limestone caverns, containing lime nitrate, was called, says the Chicago Chronicle. Legend gives other version of the historical discovery of the world's greatest cavern, but fact is patent than folklore, and now the search for caves with suitable dirt for saltpeter manufacture probably was due the discovery of this great wonder.

The feverish anxiety to find petter dirt was the direct result of the embargo bill passed by congress in 1807. That bill forbade American vessels to leave American ports for Europe, and foreign vessels could not land cargoes here.

This country was getting on toward the war of 1812 and needed gunpowder. To make gunpowder saltpeter must be had. It had been coming from Italy and Spain, but the embargo act stopped that. There was no American supply of the substances.

A roving chemist, one Dr. Samuel Brown, had at Lexington, Ky., shown how by crude but efficient processes saltpeter or potassium nitrate, could be obtained from "cave earth." Wood ashes when lixiviated and boiled with the leached product of the fine salt of limestone caverns would furnish the precious product on which depended a nation's life. And so the quest for caves were begun and was assiduously continued.

When the Mammoth Cave was found every part of the great cavern was searched for cave earth. From pit, dome, byways, from crystal-decked avenue slaves carried the heavy loads of petter dirt to the leaching vats. Many thousands of tons of soil were thus treated and the chemistry of the day producing something like 100,000 pounds of saltpeter within two years.

Heaps of leach soil scores of feet in length a score in height greet the visitors eye for the first two miles of the great avenues which the visitors enters. But these do not tell all the story. Many thousands of tons of loose rock were to be removed and then repiled in order that the real bottom of the cavern might be reached. And nearly all of this was done with slave labor. The compact piles of mud yet show hoof prints of patient oxen, as well as hule marks on the used piles.

### The Joy

Living is to have good health. Use Herbs and you will have bushels of joy. You need not be blue, fretful, and have that bad taste in your mouth. Take a bottle of Herbs, a positive cure for all liver complaints. E. Harrell, Austin, Tex., writes: "I have used Herbs for over a year and find it a fine regular. I gladly recommend it as a fine medicine for Dyspepsia." Woods & Orme.

## Epilepsy Fits St. Vitus Dance

Are nerve diseases, and unless checked, lead to destruction of both mind and body. The weak, shattered nerves must have something to strengthen and build them back to health. Dr. Miles' Restorative Nervine is a remarkable nerve tonic and stimulant. It strengthens the nerves, relieves the nervous strain and influences refreshing body-building sleep and rest. Persistent use seldom fails to relieve these afflictions.

"I was taken with epileptic fits; had eleven in less than 12 hours. My father sent for our family physician, but he could do very little for me, and I grew worse every day. I had three fits, and then had three doctors with me, and I still got worse. My father heard of Dr. Miles' medicine and bought a bottle of Nervine and a box of Nerv and Liver Pills. I had taken only a few doses of the former, and then took 12 bottles, and it cured me sound and well. It has been worth all the trouble to me. I recommend it wherever I go. You may use this as a life-long testimonial to the merits of your medicine, for I am enjoying the best of health, and feel that my life and health is due to this wonderful medicine." LEVY WILLIAMS, R. F. D. No. 2, Boston, Ga.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

THURSDAY, JAN. 17, 1907.

THE beaten path to success may be fenced against the boy without capital, but there are always ways across lots and over the hills.

The surplus in the United States Treasury on Dec. 31st, 1906, \$25,000,000, three times the amount at the same period last year.

ON account of the new Pure Food law the demand for straight whisky has increased and many new distilleries are being erected throughout the State so the demand can be supplied.

There were seventy-two lynchings in the U. S., in 1906, an increase of seven over 1905, but fifteen fewer than in 1904, and thirty-two fewer than in 1903. These lynchings took place in fourteen different states and are glad to note that old Kentucky was not among the fourteen.

A REWARD of one thousand dollars is offered for the delivery of William S. Taylor, charged with the murder of William Geoble, forcibly or otherwise to the Kentucky authorities. Bill had better stir his stumps, for a thousand dollars looks good to many kidnappers.

Charles A. Culberson United States Senator from Texas and former Congressman Benjamin F. Shively, of South Bend, Ind. are being pushed forward by their respective followers to compete with Bryan for the democratic nomination for president in 1908. Aspirants are springing up like mushrooms after a rain. Well the more the merrier.

More miles of railway have been constructed in the United States during the year 1906 than any year since 1888, according to the "Railway Age," since Jan. 1906, 6,007 miles of track have been laid on 388 lines in forty-four states and territories, making the country's total railway mileage 223,139. This certainly demonstrates the fact that we are progressing.

#### ONE OF PITTSBURG'S BEST KNOWN CITIZENS PASSES AWAY

#### Death Came This Afternoon Very Suddenly—Victim of Kidney Disease

Chas. Cropper, one of Pittsburg's best known citizens, died this afternoon at the family home 913 North Locust street after a short illness from kidney and stomach troubles which created heart failure. Death came unexpectedly at about 2 o'clock although it was known for the past day or two that his condition was very serious.

He was up and around town the first of the week but went home a few days ago feeling unwell and his condition became worse until a physician was sent for and up to the time of his death he was under his care.

He leaves a wife, two sons and one daughter, all grown. The children are Miss Mayme and Roy Cropper, who are at home, and Oscar, who holds a responsible position with the Frisco at Tyler, Texas.

Mr. Cropper was born in Metropolis, Illinois, between 47 and 48 years ago. He came to Pittsburg in 1888 and has been a resident here ever since.

He was a man of genial disposition and was popular with all who were acquainted with him.

The funeral services were held yesterday afternoon (Dec. 30th, 1906) at the family residence and was largely in charge of the Eagles. Notwithstanding the inclemency of the weather, about 300 people were present. Rev. Durboraw conducted the service which was very beautiful in its simplicity. Mrs. Geo. Donehey sang a solo "Nearer my God to Thee" and Rev. Durboraw's scriptural reading and remarks following were sustaining and comforting to the bereaved family and many friends who were present with them. The Methodist quartette very sweetly rendered two selections and the impressive and simple ceremony ended. The floral offerings were beautiful and profuse. The Eagles marched two by two from the residence to the end of Broadway proper, after which they took carriages for the cemetery. The family have a large host of friends who deeply sympathize with them in their sorrow.—Pittsburg Exchange.

Mr. Cropper married a step-daughter of J. A. Jacobs, of this city. Mrs. Cropper before her marriage was Miss Emma Dollar, of this county. She is a half sister of Rev. B. F. Jacobs, of Gahanna, Ohio, also

of Mrs. Silas Guess, of this city, Mrs. Matthew Deboe and Mrs. J. P. Loyd of Crayneville, and Mrs. Vernon Oakley, of this city. Her many relatives and friends will sympathize with her in her bereavement.

#### Tobacco Moving Again.

The welcome sight of numerous wagons loaded with tobacco, being hauled to Jarvis & Co's factory was seen on the streets of Marion every day this week. Elsewhere in this issue will be seen the announcement of Jarvis & Co. It will be glad tidings of great joy to the producers of the weed in territory contiguous to Marion.

#### Two Items of Importance to Sunday School Workers

The ships are rapidly filling up for World's Sunday School Convention in Rome, Italy, May 20-23 next. So far only a few have booked from Kentucky. We ought to have 100. Several trips are planned, some short some long, with prices according. Several attractive side trips are also planned. If you are at all interested, or willing to be made interested, write at once for explanatory matter.

The fifth session of the now famous Pastors' Sunday School Institute meet in Louisville February 18-22. Some of the finest talent in America has been engaged. Those who have attended the former session know how high grade it is, others can form no conception of it. Mr. Marion Lawrence, Mr. B. W. Spelman, C. G. Trumbull, editor of Sunday School Times, Dr. J. P. Green, President of William Jewel College; the editors of the Sunday School Literature of the Presbyterian, Baptist, Christian and Methodist Churches, and several more of like kind will take part on the program. Never before has there been so much interest in the Sunday School or in the Pastor's work in the Sunday School. The theological seminaries, to denominational papers and denominational meetings are all giving vastly more attention to it than ever before. The Institute will be a means of unifying, amplifying and intensifying these efforts.

Every pastor in the State who can possibly do so should attend. All who desire it will be entertained, provided names are sent in by February 12. Not only pastors, but superintendents and teachers as well should attend. Reduced rates have been applied for and good boarding can be secured \$1.00 per day.

For program and full particulars address E. A. Fox, Louisville Trust Building, Louisville, Ky.

Before selling your produce you will reap a nice profit if you see Schwab.—He pays cash for all country produce.

#### "BUSTER BROWN" HERE

#### Unique Character, Well Known to the Children of Marion, Pays Us a Visit

#### WITH THE BROWN SHOE CO., ST. LOUIS

Last Wednesday afternoon, as previously advertised by the local agents for the "Brown" shoe, Messrs. McConnell & Stone, that well-known character to children—Buster Brown who has traveled the length and breadth of the land from Boston to Frisco, honored Marion with a visit. He came direct from Lexington and reached here after an all night ride. Wednesday morning at 8 o'clock. He was driven at once to the New Hotel Crittenden where breakfast was had and many prominent people met. Soon after breakfast he went by special invitation to the Graded schools and addressed the children. A platform was erected in front of McConnell & Stone's store on Main street where he delivered his speech to one of the largest crowds seen on the streets for many days.

The children were all there and their parents too—all of them that could get there. He told many interesting stories but none more so than the history of the house of "Brown" and the shoes they make—those with the five star five mark.

#### "A Bargain in Real Estate."

### For Sale at a Bargain.

House of three rooms, on Walker street. S. H. RAMAGE.

The subject of the sermon at the Presbyterian Church last Sunday was "The Relation of Science and Religion." The text was Heb. I : 10. "Thou, Lord, in the beginning hast the foundation of the earth; and the heavens are the work of thine hands." The remarks of the speaker were to demonstrate the relation of science and religion; now they are in opposition rather than opposition. Science takes the student back to the beginning of the material universe and that is as far as science can go.

Science can give a history of life and tell us in what forms it has existed upon earth. But when it comes to the analysis of life we have to seek elsewhere to ascertain its origin.

Some scientists have an anti-scriptural spirit and some Christians have an anti-scientific attitude; neither of which is reasonable. Science in its course deals with matter going backward from age, to age, until it reaches God the Creator.

Religion in its realm moves from God to matter, as in the text the author in the act of worship unites both religion and science: "Thou, Lord, in the beginning hast laid the foundation of the earth."

The next thought was the relation of science and the Christian religion. Christ is the creator of the world. John testifies to Christ's work as the creator. John 1:3. "All things were made by him; and without him was not anything made that was made. In him was life. Many passages of

Scripture teach that Christ was vitally connected with the work of creation. This makes Christianity a reasonable religion, as well as scientific. The Christian is a scientist, and the scientist should be nothing less than a Christian.

There will be services at the C. P. church next Sunday.

The Bible Class will meet at the C. P. church next Sunday at 2:30 p.m.

### H. C. LOVE'S APPOINTMENTS.

First Sunday, Hillsdale  
Second Sunday, Mt. Zion,  
Third Sunday, Shady Grove,  
Fourth Sunday, Rose Bud.  
Public cordially invited.

D. H. King and son, Arthur, of Rodney were in the city Wednesday.

Dr. Walter Travis of Tribune left Wednesday, for Louisville to enter the Hospital College of medicine this is last term.

### Cross—Millen

The Press acknowledges receipt of the following invitation:

"Mr. and Mrs. Ed. Baker request the honor of your presence at the marriage of Miss Irma Millen to D. A. Cross, at residence, Wednesday, January 13th, 1907, at 6:30 o'clock, Bakers Station, Kentucky."

Miss Millie who is a Livingstone county girl is known far and near for her beauty. She has many friends in her home county as well as Caldwell where she resides. Mr. Cross is city judge of Paduah, a well known lawyer.

### Conger—Crayne

Fred Crayne, the son of Vernon Crayne of the Piney section, and Miss Lilly Conger, the attractive young daughter of J. Frank Conger, one of the editors of the Crittenden Record, were married last Wednesday afternoon at the home of the groom's parents in the Piney section.

The young couple will reside with the groom's parents for the present.

### Now Has an Orchestra

W. B. Yates, the singer of Sheridan, Ky., who has filled engagements from Maine to California, is now able to contract where orchestras are demanded. He has a fine voice and heretofore was assisted by his wife only.

Last Thursday a little stranger put in appearance at his home and we are informed he makes music too. Hereafter the combination will be known as the "Yates Orchestral Trio."

Before selling your produce you will reap a nice profit if you see Schwab.—He pays cash for all country produce.

### The Boys Eyed Him.

Last Wednesday when the 3:40 train stopped at Marion, a middle aged looking man stepped from the royal bumpers of the muley baggage upon the siding at the depot. He cast his eyes around at the crowd and threw back his overcoat to put his hands in his pockets. When he did this, dangerous looking weapon of the firearm family, were plain to be seen projecting from the rear pockets of his trousers. The boys at once began to get scared.

Some one after making a closer inspection noticed he wore a star on his vest. They at once sized him to be a U.S. marshal. We have not yet been able to learn anything particular of his business, but who ever he was, "the boys eyed him."

### Rifle Free To Wide Awake Boys.

We have a Stevens rifle a fine gun, but a floret but a real rifle worth at least \$10, which shoots No. 32 cartridges which we will give to the first boy who brings us twenty-five annual subscriptions to the Press provided as many as five are new subscribers. This offer holds good till the 19th of February only. All contestants must be in before Tuesday February 19th, 1907. The Press of Thursday February 21st, will contain a list of the contestants and how their list was received at the Press office by us.

### Many Additions, But Still Room

Quite a number of new students have recently been enrolled at Marion Graded Schools, sixteen last week. Prof. Kee informs us he will be able to accommodate yet a limited number of worthy students if they will enter at the opening of the second term next week, that they may be properly classified.

## A Few Facts.

By A CHURCH LEADER

Editor Will you grant us a space to notice briefly a few items in the Record by R. M. in his story of the camping. We were very much surprised to say the least, at some he said, and feel it an injury to allow some statements to pass unnoticed. As he claims to write from memory, we don't prefer charges. Just lay it to a defective memory, perhaps a little doty, as he adds on that accusations were persons knowing the least. He states that as long there was no opposition by the church we had grand

We admit some opposition what was it, and why? in latter there has been such a spirit of realism manifested in the of the committee. We at a time, and also right to them. He would have us to the camp meeting an vindictive constitution, surely he the laws of his church too well as he says it was certain for all, every name and come and feel at home and with us, but it was just as intended that it should be an election and supervision of (by law) though it has not by practice. Then he speaks understanding about reports having to be made. Neither understand why there has existed such a prejudice against the annual collections taken the expense of the camp though it amounted to \$50,000.00, then so persistently that the pastor report (as church dues) money given those not of his flock. Oh, more than art a jewel, however glad for the great number of as the result of camp meeting, certainly it will require a number to supply the depleted caused by the annual edict to change confusion strife etc. only, if we sow the seed we reap the fruits. Here is a sample our sowing. "I am of Paul, Vipolis and etc and if my present with me' results speak for selves. One plain question and done, can a christian a member church repudiate his church and all obligations to his pastor his influence against him for no other cause than merely able difference of opinion still the spirit of Christ and bring forth the fruits of Holiness? want unity, peace and prosperity must be more liberal, generous and charitable toward our man. We are all liable to mistakes, but we must forgive, not write for discussion nor my spirit of resentment or censure merely to state facts as exist, the proof of which is on every hand and we that we have to render an account of our own "stewardship" (not of another) before the judge of God, shall it be in discord and confusion? As we sow so we reap. "THE Leaders of the church."

### Illinois Letter.

Pana, Illinois, Jan. 1, 1907.—EDITOR THE PRESS

I will try to scribble you a few lines. It has not been cold enough here this winter to freeze the grass, the meadows and pastures are green and nice, we have not had but very little snow here so far, I guess it will wait until we ought to have Spring and then have our winter, we have had plenty of rain. Cattle are very low here, horses and mules bring good prices, weanling mules brought from \$75.00 to \$100.00 good horses sell from \$150 to \$225 to \$250, a good span of mules sells from \$400 to \$500 and are scarce, any one that has them had good use for them. Hogs are selling at \$6.00 per hundred. All kinds of produce is high, butter 23 cts. per lb, eggs 30 cts per dozen. There a pretty fair crop raised last year considering the season, it was awful hot and dry, if we could have had some of the rain, we have now, we would have had fine crops. The roads are almost impassable here now. The people here seem to be industrious and prosperous and attend strictly to business, so I have found them four years I have lived here. I saw that some one got Frank Adams' ax. Frank has the axes got so scarce in Old Kentucky as that or was it some mischievous boy's prank on you? Well Mr. Editor I would like very much to see the news from Tilney every week my old home, it seems like the paper would be worth so much more to me and many others that have lived there and are scattered all over the United States, I know some one from Tilney would write for the paper if you would furnish the material. Well I guess I will close as the waste basket is waiting for this. If it is in print I may some time write again. Wishing all readers of the PRESS a prosperous year, I remain as ever yours.

### An Animal Story For Little Folks

#### How a Cat Fooled the Cow

There was once a very smart cat who was very, very fond of milk, as all cats are. Now, this cat was unaccustomed to go into the dairy and help himself to the milk that stood there in the pails. When the milk was so low that she could not reach it she would deliberately upset the pail and then lap the milk from the ground.

"What are you doing there?" cried Mrs. Cow one day when she found the cat taking his daily midday meal of milk.

"Don't you know who I am?" cried the cat, in mock surprise.

"Of course I know who you are," replied Mrs. Cow. "You are the cat."

"WHAT DO YOU THINK OF THAT?" EXCLAIMED THE COW.

"Ha, ha, ha!" laughed the cat. "You are altogether mistaken. I am a calf, and I have perfect right here."

"Then I must be growing blind," said the cow. "There is only one calf in this dairy, and you do not look anything like him to me."

"That is because your eyesight is so very poor," replied the cat, with a sneer. "I am the calf, but you cannot see well enough to recognize me."

"It is very strange," mused the cow.

"But then I guess I'm getting old and am not able to see as well as I could when I was younger."

So the cat continued to drink the milk, and every day would come back and get more, while the old cow looked on and wished she had a pair of spectacles like the dairymaid's father always wore.

But one day while the cat was drinking and the cow was looking who should come in but the calf himself!

And then didn't the old cow look!

She looked the calf over well, and then turned and looked the cat over well.

"Well, what do you think of that?"

For a full minute she stood there and thought it all over, and then she suddenly threw her head down and caught Mr. Cat square on the tips of her horns. In another instant the cat was tossed fifty feet into the air clear over the top of the chicken house and into a hornets' nest on the other side.

By the time he got out of that new trouble he had learned a good lesson—never to try to deceive.—Atlanta Constitution.

#### The Dog's Mistake

A clown had a bulldog over whom he smeared a lot of paste and then covered him from head to feet with feathers. It made a very funny looking fellow of the dog, and everybody went to the circus to see him. They sold many pictures of themselves, and when the people put the money on the stage the clown would pick it up and keep it to buy food for them both and pay their board.

"Why should the clown take the money?" said the dog to himself. "I
